

NHS Accredited Diabetic Eye Screening Locations

Please make an appointment at one of these accredited screening sites for your **FREE** Diabetic retinopathy slit lamp screening test

You may still wish to attend your regular optician when you are due your routine sight test, **but ONLY these opticians listed below are accredited to the NHS Wirral Diabetic Eye screening programme.**

Remember when you attend your appointment:

•do not drive to your screening test, as the drops can make your vision blurred for up to 6 hours;

If your chosen location has **no appointments available within the next six weeks**, then please call the screening programme on 0151 604 7369

Area	Company	Address	Phone

WIRRAL SOUTH EAST				
Bromborough	The Eye Works *	128 Allport Road <u>Bromborough</u> CH62 6BB	0151-343-0044	

A slit lamp examination for diabetic eye disease is required (instead of using the digital camera) because we could not get a clear view of the back of your eyes using digital photography

Diabetic eye screening helps to prevent sight loss

For weekend appointments

* Open Saturday mornings

** Open Saturday afternoon

*** Open allday Saturday
