Catering Dishwasher Installation - Important Information for Staff

The main dishwasher in the Catering Department at Arrowe Park Hospital is being removed and replaced, with work scheduled to begin on Monday 24th November. The installation is expected to take approximately three days and will cause some temporary disruption to catering services.

Jug and Beaker Collections

Morning jug and beaker collections will continue as normal. Red-handled beakers will be prioritised so that they remain in use throughout this period.

All other jugs and beakers must remain in their storage boxes and will be collected by the Catering Team once the new dishwasher is operational.

Please do not wash jugs or beakers at ward level. Bottled water will be supplied each morning as an alternative.

The Retreat

To support continued service, The Retreat will temporarily use disposable plates, bowls, cutlery and trays.

We apologise for any inconvenience caused and appreciate your understanding while this essential upgrade takes place.

If you require any support, please contact the Catering Office on ext. 2374.
