NHS Staff Survey - One Day Left to Have Your Say

Thank you to the 40.96% of colleagues who have already completed this year's NHS Staff Survey. Your feedback is vital in helping us understand your experience of working at WUTH and where further improvements are needed.

With one day remaining, there is still time to take part. The survey is your chance to tell us what's going well, what needs to change, and what matters to you in your working life.

The survey is completely anonymous. It is run independently by Picker Europe, who securely collect and store all responses. WUTH only receives grouped, anonymous results that cannot identify individual staff. More information on [how anonymity is protected can be found on the intranet.](#)

Everyone who completes the survey can choose to enter our staff prize draw. Prizes include:

- Retail vouchers
- An iPad
- An additional day of annual leave
- A year's free parking on site
- And more

If you haven't completed your survey yet, please check your inbox (and junk folder) for an email from Staff Survey 2025 (picker_surveys@picker.org), or complete your paper survey if you received one.

It starts with you. Your voice matters.
