Festive MS Teams Background Now Available

To help colleagues get into the festive spirit, a new Christmas-themed MS Teams background is now available for staff to download and use throughout December.

It is a simple way to add a touch of seasonal cheer to virtual meetings while we head into the run-up to Christmas.

You can view the background by clicking [here](#) and upload it via the “Apply background effects” option in Teams.

Enjoy bringing some festive colour to your calls.
