

**Date: 5<sup>th</sup> February 2026**

**Reminder on No Mobile Phone Use in Clinical Areas**

Staff are reminded that the use of personal mobile phones in clinical areas is not permitted.

This is important for maintaining patient privacy, supporting infection prevention and ensuring a professional and reassuring environment for patients and their families.

We ask all colleagues to remain mindful of this guidance during their shifts and to use personal devices only in appropriate non-clinical areas.

Thank you for your continued cooperation and professionalism.
