

**Date: 9<sup>th</sup> February 2026**

### **Shout Outs – Monday 9<sup>th</sup> February 2026**

Please see the following shout outs that have come in about our amazing staff.

If you would like to give a 'shout out' to a colleague, please email [wiht.communications@nhs.net](mailto:wiht.communications@nhs.net) with the subject 'Shout Out'.

**Please include the surname and job title** of the member of staff to be given a shout out. Make sure you have spelled their name correctly.

Please also remember that we have the fantastic WUTH eCards available for all staff to use and send cards to each other. The cards cover a range of situations including Thank You and Great Work. All PCs and laptops have this icon on the desktop to access eCards.

To find out more about eCards, please click below:

---

#### **Danielle Rimmer, Catheter Laboratory Care Co-ordinator**

Shout out to Danielle Rimmer. Danielle always goes out of her way to help and does so with a positive attitude. Her efficiency and support make a huge difference, and I would be lost without her. She is a real credit to the Trust. Thank you so much for everything you do.

#### **Natalie McCormick, MDT Coordinator**

Natalie is an invaluable member of our Gynae MDT and is deeply committed to her role in managing cancer pathways for our patients. Her dedication and hard work are greatly appreciated by the Gynae CNS Team. Thank you, Natalie, for all your continued efforts and support.

#### **Dermatology Team**

The team has experienced a significant increase in referrals, alongside a period of change and additional work to support recovery. I would like to say a huge thank you to the entire team, including clerks, secretaries, nurses, clinicians, and the BSM, for your commitment and passion. The way everyone has pulled together is a true reflection of WUTH values and demonstrates how

working as one team can make a real difference for our patients. Your dedication and teamwork are truly appreciated.

**Tim Kinch, Groundsman at Clatterbridge Site on behalf of Constructing Minds with Nature**

Despite the rain, and with help from Tim, our groundsman, 100 crocus bulbs were planted today across the Clatterbridge site, including areas near the canteen. Although crocuses usually flower in February or March, the later planting means they will bloom a little later this year. Crocuses are an important early source of nectar for bees and other insects, so this is a small but meaningful step in supporting local wildlife. A big thank you to everyone involved for helping brighten the site and support biodiversity.

**Amanda Platt, Vickie Hallwood, Karen Salisbury, Marriane Sprenger and Danielle Rimmer,  
Cardiology Secretaries**

Shout out to Amanda Platt, Vickie Hallwood, Karen Salisbury, Marianne Sprenger, and Danielle Rimmer, our Cardiology Secretaries, for all their support when it is needed most. They never say no and are always happy to help, with nothing ever being too much trouble. Thank you all sincerely for your dedication and hard work.

**Neil Morrison, BI Business Analyst, Medicine & Acute and to Chris Barber, Technical  
Development Manager Business Intelligence**

A huge thank you to you both for pulling together a report at such short notice, especially given the urgency and how busy things already were. I really appreciate the support. I know requests like this are not always easy to accommodate, which makes your help even more meaningful. Moments like this truly highlight the value of teams supporting one another during particularly pressured times, and it genuinely made a difference. Thank you again for being so helpful and responsive. It is very much appreciated.
