Changes to IPC Mandatory Training Requirements

Due to recent changes to the Infection Prevention and Control e-learning packages, colleagues are likely to see updates to their mandatory training requirements.

In the coming days, all staff who complete the Level 2 IPC package will also receive the Level 1 IPC e learning package as part of their required training.

To be fully compliant with the Level 2 competency, the Level 1 course must also be completed.

The majority of colleagues who have already completed Level 2 will automatically be given the Level 1 competency.

However, we ask all staff to check their mandatory training record on ESR. If the system shows that the Level 1 course is outstanding, please complete it at your earliest convenience.

There is no change for colleagues who are required to complete Level 1 only.

If you have any questions, please contact the Learning and Development team at wih-tr.mandatorytraining@nhs.net.
