Changes to Fire Safety e-Learning Frequency

Fire Safety is a priority at the Trust and a key part of our mandatory training requirements.

To align with national guidance, the Trust has agreed to change the refresher period for Fire Safety e learning to every two years.

As a result, colleagues who completed the Fire Safety e learning course in February 2024 or earlier will now need to complete the updated package on ESR as soon as possible to remain compliant.

Please log into ESR and check your mandatory training record to confirm whether the course is due.

If you have any questions, queries, or are unable to access the course, please contact the Learning and Development team at wih-tr.mandatorytraining@nhs.net.
