Celebrating Angela McDonald's retirement

This week colleagues had the pleasure of coming together to celebrate the retirement of Angela McDonald, Assistant Director of Nursing for Children and Neonatal Services in the Women and Children's Division.

Staff gathered over lunch and cake to mark the occasion and to thank Angela for her dedication, leadership and contribution before she leaves the Trust.

Angela has made a valued contribution to the Women and Children's Division and to the wider Trust, and her retirement was a fitting opportunity for colleagues to come together and show their appreciation.

We wish Angela all the very best for the future and offer a sincere thank you for everything she has given to WUTH and the Women and Children's Division.
