**Patient thanks recognises outstanding care across wards**

A patient has shared their appreciation for the care they received during a recent stay at WUTH, recognising the dedication and compassion shown by colleagues across multiple wards.

During their stay, the patient received care on Ward 44, AMU and Ward 31, and praised the high standards and teamwork across all areas.

They said:

“Ward 44 was extremely busy, but the nursing care was excellent. The nurse looking after me and other patients worked incredibly hard. I then moved to AMU, where again I could not fault the staff. Their care was exemplary. On Ward 31, all staff, from domestics to nursing teams and everyone in between, were fantastic. They were friendly, caring and nothing was too much trouble.

My thanks to everyone involved in my care. I am now on the road to recovery because of their care and commitment.”

Thank you to all colleagues for continuing to deliver outstanding care and making such a positive difference to our patients.
