Celebrating 75 years of Radio Clatterbridge

Today marks the 75th anniversary of Radio Clatterbridge, a much-loved service that continues to make a real difference to patients across our hospitals and the entire Clatterbridge Health Park.

To celebrate this milestone, the dedicated team of volunteers are hosting a 75-hour continuous broadcast, recognising the station's long history and ongoing contribution to patient wellbeing.

Radio Clatterbridge plays an important role in supporting patients at Clatterbridge Hospital, helping to boost morale and support recovery. ITV Granada Reports visited the site to speak with volunteers and patients at the Clatterbridge Rehabilitation Centre, highlighting the positive impact the station has on people's experiences.

The station also has a rich history, including [recording one of The Beatles' earliest interviews](#).

Coverage of the anniversary will be featured on ITV Granada Reports this evening from 6pm.
