Volunteer Making a Difference Award - Charlie Hollywood

Congratulations to Charlie Hollywood from the Therapies team, who has received the Volunteer Making a Difference Award.

Charlie is a valued member of the team and brings energy, creativity and compassion to everything he does. Each week, he runs a bingo session on the ward, complete with his sparkling jacket, creating a fun and engaging environment that brings joy to patients and lifts spirits.

Alongside this, Charlie supports the team by contributing to new ideas and projects. He is currently researching local Wirral landmarks to help develop a 'Wirral walk' for patients, supporting mobility and rehabilitation in an engaging and meaningful way.

Charlie also plays a key role in updating activity boards as part of the preventing deconditioning project and regularly supports patients with activities such as crosswords and word searches.

Described as a true asset to the team, Charlie's kindness, enthusiasm and dedication make a real difference every day.
