

**Date: 23<sup>rd</sup> April 2026**

### **Interview Skills Training now available**

As part of our ongoing corporate integration, we recognise that colleagues may have questions or concerns about navigating organisational change.

To support this, Interview Skills Training is available to all corporate staff affected by change. This structured and supportive session is designed to help you feel more confident and prepared throughout the process.

The training covers key areas including managing applications, updating CVs and writing cover letters aligned to job descriptions. It also provides guidance on preparing for interviews, including how to structure clear, evidence-based responses, alongside techniques to help manage pressure and build confidence.

For many colleagues, it may have been some time since taking part in an application or interview process. This session offers a safe and supportive environment to refresh your skills.

To book, please visit ESR, select My Learning and search for interview.

If you experience any issues booking, please contact the Learning and Development team on [wuth.learninganddevelopment@nhs.net](mailto:wuth.learninganddevelopment@nhs.net) for support.
