

Date: 18th June 2026

**Join us to celebrate the opening of the Constructing Minds Garden
Friday 26th June from 12pm until 2pm**

As colleagues may remember from previous communications, WUTH was kindly donated the Constructing Minds Garden following the RHS Flower Show at Tatton Park in 2023.

The installation of the original garden was led by Constructing Minds with Nature, a landscape design studio specialising in charitable and community gardens.

In September 2025, Constructing Minds with Nature generously proposed extending the garden at no cost to the Trust to create an even greater space for wellbeing and reflection.

The extension is now complete and includes a Butterfly Meadow and Woodland Walk with additional seating areas for staff, patients and visitors to enjoy.

The garden has been designed around the theme of mental health and aims to provide a peaceful and restorative environment that supports wellbeing and helps reduce stress and anxiety.

Colleagues are invited to join the official opening event – click [here](#) to view the poster.

- Friday 26th June
- 12pm-2pm

The garden is located outside the Dermatology Department at Clatterbridge Hospital, next to Car Park A. Click [here](#) to view on a map.

Hot drinks and sweet treats will be available.

We hope colleagues will take the opportunity to visit the space and celebrate the completion of this fantastic addition to the site.
