

Staff Travel Survey

We are developing and updating the Trust's Green Travel Plan and would like to hear about your current travel habits, the challenges you face when travelling to and from work, and your views on more sustainable travel options.

The survey will help us to:

- Understand how staff currently travel to work and between sites.
- Identify opportunities to support active travel, such as walking and cycling.
- Gather feedback on the use of public transport and any barriers staff experience.
- Assess interest in electric vehicles (EVs) and the potential demand for workplace EV charging infrastructure.
- Inform future travel initiatives that support staff wellbeing, reduce carbon emissions and improve sustainability across the Trust.

Your feedback is extremely valuable and will help shape future travel and sustainability plans. The survey should only take a few minutes to complete, and all responses will be reviewed in aggregate to help identify trends and priorities.
