Microbiology Team, Bromborough

A huge shout out to the incredible Microbiology team at Bassendale Road, Bromborough. Last week brought significant challenges when the air handling unit failed on what was likely the hottest day of the year. Despite having very little notice, the team responded immediately and professionally to protect vital reagents, equipment and the integrity of the service. They quickly adapted their ways of working, demonstrating outstanding flexibility, teamwork and commitment under pressure. Their ability to remain calm, focused and solution-oriented in such difficult conditions ensured that patient care and high laboratory standards were maintained throughout. This is a fantastic example of resilience, dedication and true team spirit. A huge thank you to everyone involved, you should all be incredibly proud of how you handled such a challenging situation.
