ANPR scam message alert

ANPR went live last week at car parks at Arrowe Park Hospital and Clatterbridge Hospital as planned.

Thank you to staff for all your cooperation.

We are aware that some staff have received a scam message about parking charges, claiming to be from Parkingeye.

Please be aware that this is a phishing message and an example of this can be seen below. Staff who receive such a message are advised to delete this and do not reply.

Parkingeye will not send messages to phones or by email about parking fines, as people will always be contacted by a letter through the post.

If staff have any concerns, please contact the car parking team at wuth.ANPRProject@nhs.net.

Example of a phishing message:
