Pharmacy Support Staff Appreciation Day celebrated at WUTH

Today, WUTH's Pharmacy Department is celebrating Pharmacy Support Staff Appreciation Day, recognising the outstanding contribution of colleagues working in support roles across the service.

More than 80 nominations were submitted by pharmacy colleagues, with heartfelt messages recognising the dedication, professionalism and commitment of support staff who help deliver safe, effective and timely care to patients every day.

Dr Chris Green, Director of Pharmacy and Medicines Optimisation, said: "I want to take a moment to say how much I appreciate the impact of each and every one of our fantastic Pharmacy Support Staff. Their dedication ensures that patients receive safe, effective and timely care every single day. These staff go above and beyond, often in challenging circumstances, and always with such commitment to play their part in delivering a great service."

The nominations highlighted the invaluable work carried out across the department, including:

- Procurement and Homecare teams managing medicine supply challenges and ensuring medicines and medical gases are available despite national and global shortages.
- Pharmacy Support Workers across Arrowe Park, Clatterbridge and ward areas ensuring medicines are safely distributed, securely stored and available when patients and clinical teams need them.
- Dispensary reception staff, volunteers, support workers and aseptics colleagues who help deliver an efficient medicines supply service and support patient flow alongside the portering team.
- Aseptics Healthcare Scientists who ensure the safety, quality and effectiveness of aseptically prepared medicines.
- The Pharmacy Administration Team and Medicines Safety Assistant, who provide vital support across the department and help keep services running smoothly.
- Pharmacy domestic colleagues, whose work helps maintain a clean, safe and welcoming environment.
- The Pharmacy IT Team, who support critical dispensing systems, robotics, stock control, Omnicell medicines management and MedSearch.
- The Pharmacy Data Analyst, whose expertise provides valuable data and insight to support assurance and continuous service improvement.

Thank you to every member of our Pharmacy Support Staff for your commitment, expertise and the vital role you play in delivering high quality care for our patients.
