Nominate an Improvement Champion

Do you know someone who has made a real difference through innovation, improvement or by finding a better way of working?

Nominations are now open for our Improvement Champion Awards, giving colleagues the opportunity to recognise individuals who have made a positive impact within their team, department or service.

You may wish to nominate someone who has:

- Driven a positive change within their area
- Found a smarter or more efficient way of working
- Improved patient safety
- Enhanced the experience of patients or colleagues
- Helped make their department a better place to work

If someone has gone above and beyond to improve the way we work or the care we provide, now is the perfect opportunity to recognise their contribution.

Submitting a nomination is quick and easy. Simply complete the short online nomination form using the link below.

All nominations will be reviewed and the winners announced at the next Shared Learning Forum on 11 August. All nominees will be personally invited to attend, providing an opportunity to celebrate their achievements alongside colleagues.

The closing date for nominations is 31st July.

Thank you for taking the time to recognise the colleagues who are helping to improve services and make a difference across WUTH every day.
