Clatterbridge ward M1 special World Cup tea

M1 organised a special World Cup celebration for their patients and their families. Jenine Kelly, Dementia Matron has praised the great efforts of the M1 team to bring the World Cup atmosphere to the ward.

“The team have gone above and beyond for our patients and families by hosting an “afternoon tea” for the World Cup. The patients and families have fed back that this kind and considerate gesture has made their hospital stay very special.

“This is heartwarming to see and I can’t thank the team enough for the efforts here.”
