UECUP update: Children's ED and PAU have relocated

As part of the ongoing UECUP project, the Children's Emergency Department and Paediatric Assessment Unit (PAU) have now relocated to their new areas at Arrowe Park Hospital.

The entrance to Children's ED is now located next to the new Adult Emergency Department, and colleagues should direct patients and families to this new location.

Please be aware that the previous Children's ED and PAU locations are now closed and should no longer be used.

Thank you to everyone involved in supporting the move and helping ensure the successful relocation of these important services.
