August's 'Medicines Matter Newsletter' now available

The latest [Medicines Matter Newsletter](#) has been published for August, providing colleagues with an update on new medicines and prescribing guidance approved across WUTH and the Cheshire and Merseyside Area Prescribing Group.

This month's edition includes guidance on choosing oral rather than IV paracetamol where clinically appropriate, highlighting benefits including reduced patient risk, nursing time, cost and environmental impact.

There are also updates on new medicines, formulary and prescribing guidance, high cost drug pathways and interface prescribing arrangements.

You can read the August Medicines Matter Newsletter and [access previous editions on the intranet](#).
