

What our **patients** say

We're so proud of what our patients tell us about our services:

"Thank you for the opportunity of being the first person to undergo robot surgery. The surgeon was incredible, and all the staff on the ward were very attentive and cannot be faulted. I felt well the day after surgery, and a week later I feel almost back to pre-surgery!"

A huge thanks to your gynaecology nurses who are a credit to the medical profession. The care I received was excellent.

"I have been very very impressed on my several recent visits to the Gynae clinic. The nurses have been exceptionally kind, reassuring and patient."

"I was so worried about having my hysterectomy, but everything went so well, and all of the staff were fantastic. They really helped me feel at ease".

Whatever you need us for, you can be sure of world class facilities and caring, compassionate staff to look after you.

Choose us to care for **you...**

It's easy to make an appointment to see us:

Just tell your GP that you'd like your appointment and treatment to be at Wirral Women and Children's Hospital, and they'll refer you.

We're based in the dedicated Wirral Women and Children's Hospital based at the same site as Arrowe Park Hospital.

We also run clinics at St Catherine's Health Centre in Birkenhead, and at the Victoria Central Health Centre in Wallasey

Just give us a call to find out more on **0151 604 7682.**

We look forward to welcoming you at Wirral Women and Children's Hospital.

Wirral Women and Children's Hospital

The Specialist Gynaecology Service on the Wirral.

Focused on **you**...

At Wirral Women and Children's Hospital, we're focused 100% on the needs of women; meaning that everything we do is dedicated to helping you to get seen quickly, and back to full health as soon as possible, if you do need our treatment.

We believe our services for women are quite simply the best in the Northwest. We have a dedicated women's ward and treatment centre, have consistently low waiting times, and are renowned for our skilled and caring staff, committed to your care, your privacy, and dignity.

Along with our modern facilities, and surroundings, it all adds up to a patient experience with your needs at the heart.

99%

of patients would recommend us

And it's not just us that think so! 94% of our patients told us that they'd recommend us to those closest to them – and 99% told us that they got the care that mattered to them, during treatment.

Caring for **you**...

From when you first come into contact with us, you'll see how our passion for providing the best care for women runs through everything we do – whether you just pop in and out for a quick appointment, or if you need an operation or minor procedure. And most procedures can be done without you having to stay in overnight.

We provide care for everything to do with women's health. So it's good to know we're here if you ever need us for things including:

- Gynaecology procedures e.g. hysterectomy
- Outpatient sterilisation service
- Robotic keyhole surgery
- Infertility treatment
- Cervical screening and colposcopy
- Urogynaecology e.g. bladder problems and prolapse
- Early pregnancy problems
- Endometriosis e.g. pelvic pain
- Menstrual disorders
- Pessary service, to help with prolapse and incontinence.
- Vulval irritation

Passionate about **your** needs

Our service is all about **women**.

We're one of the only hospitals in the region that solely provides women's health care, from routine screenings, through to more complex treatments. We have a highly experienced and qualified team of consultant gynaecologists (including female consultants) to care for you.

State of the art **technology**

As a regional Centre of Excellence, Wirral Women and Children's Hospital sets the standards that others look to.

We're pioneering the use of the very latest in surgical technology. We're the only hospital in the region to use the Da Vinci surgical robot for procedures like hysterectomies, meaning you'll be in hospital for a shorter time than you might expect.
